LOOKING FOR THE DATA ENGINEERS OF 2024?

Yearly, LINKIT finds, selects and trains promising developers to become junior data engineers.

INKIT

The program consists of a seven-week boot camp and a one-year traineeship (with LINKIT mentor) with one of our customers. A tailor-made traineeship based on the customer's techniques.

The goal: A new permanent employee for the customer with the right technical knowledge and experience!

SKILLS ACQUIRED IN OUR BOOTCAMP
